REMARKS

In response to the Restriction Requirement of July 12, 2005, Applicants hereby elect Claims 1-12 corresponding to Invention Group I, drawn to ferroelectric capacitor devices. Applicants have canceled Claims 13-33 corresponding to Invention Group II, drawn to methods of forming a ferroelectric capacitor. This cancellation is being made without prejudice to the filing of a divisional application for these claims and/or other claims.

Applicants are not traversing the restriction requirement because Applicants agree that the unpatentability of Invention I would not necessarily imply the unpatentability of Invention II.

The title has been changed to conform to the election of device Claims 1-12. Applicants respectfully request favorable substantive examination and allowance of Claims 1-12.

Respectfully submitted,

Robert W. Glatz
